Revolution Training Programs

SPRING & FALL ACADEMY

For Clubs, Teams and Youth Soccer Organizations

This program provides a unique opportunity to have a member of the Revolution Academy coaching staff conduct a high-level training session or series of sessions in your town. The coaching topics may be of a technical or tactical nature that your players and teams need more support and help with. Our Spring & Fall academy programs are designed to create the best teaching environment and opportunity for your players, teams and coaches to develop under the guidance of soccer professionals.

The Academy sessions run for 1-8 weeks based on your club or teams needs as additional support to your local volunteer coaches. Our coaching staff will deliver Academy sessions, which are adapted towards the specific level and age groups in your organization.

Sessions can be scheduled during the spring and fall seasons.

COACH EDUCATION

For Clubs and Youth Soccer Organizations

Your club coaches will be taken through an on-field interactive coaching session to demonstrate the session plans used by the professional youth academy. Session content can be tailored to each age group and level with supplementary lesson plans provided to all participants.

As part of the coach's education package your coaches will be invited to view our youth development teams training sessions to experience first hand the training environment at the professional youth level.

Sessions can be scheduled year round and also as a series of sessions to support your club development.

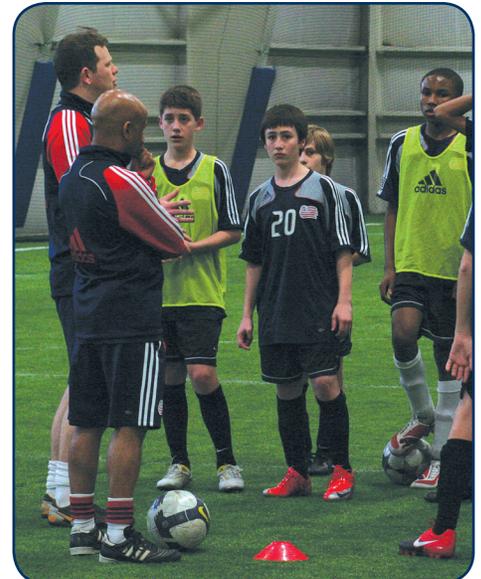

PREMIER CLUB TRAINING

For Premier Level Clubs

Our Academy works closely with premier clubs and teams to highlight the training philosophies of our academy and development programs. Using the same coaching methods as our professional and academy teams, specialized training sessions will focus on both technical and tactical development for your players and coaching staff. Our goal is to provide an insight into the New England Revolution coaching methods and allow players and coaches to experience first hand the training sessions of the only professional soccer club and professional youth development teams in the area.

A highlight of this program will be for your coaching staff to visit Gillette Stadium to observe our U-16 & U-18 Development teams and coaches in action. This will give your club first hand experience of the professional youth development teams and the type of training environment at the professional youth level.

Sessions can be scheduled year round for Clubs and Individual Teams

"I know I said it earlier but a BIG thank you for coming out for the session last week! It certainly accomplished what I had hoped for with my U-12 & U-14 boys and I know the coaches were delighted with the opportunity to see the Revolution Academy at work. The visit to the Academy Teams sessions as a follow up was a real highlight for our club coaches. We certainly have to organize more together. Brilliant night!"
